

Large Faux Television

Writer: Mark Jones

The Big Idea: This large screen TV is for sitting on a table to discover information. The TV will appear to have no reception with the screen in a zigzag pattern or straight color bars.

Supplies Needed: Flat box the desired TV size (left from the purchase of a TV or box supply store), black enamel paint or spray paint, utility knife, yardstick, patterned fabric (laminated for screen front), black duct tape, Optional- add an antenna on top

Instructions:

- Paint box
- Measure the opening of the box for the screen (allow room for screen to fit the hole and be taped inside).
- Tape the laminated fabric screen inside the box covering the hole.
- Tape each end of the box closed.
- Add antenna on top
